## 1. Network management

BCAS as the secretariat of CapNet Bangladesh network maintains communication with the network members. BCAS is having consecutive informal and formal meetings with implementing network members. A small team consisting of three personnel of BCAS work on the network activities. One of them is engaged for regular communication and management. Two of the team members voluntarily support the secretariat of CapNet Bangladesh.

## 2. Members of CapNet Bangladesh

CapNet Bangladesh composes two categories of members from the beginning. The Core Group members are the steering body to make decisions and plan the activities. The general members are involved to share and disseminate experiences and lessons and plan new activities to strengthen the network and also put efforts towards sustainable water resources management in Bangladesh.

### A. Core Group Members of CapNet Bangladesh

CapNet-Bangladesh Core Group consists of well-established and reputed organizations on water sector. These organizations work on water related issues at both local and national level. There are 10 existing Core Group members including the Chairman and Manager of CapNet Bangladesh.

### B. General Members of CapNet Bangladesh

The CapNet network general members includes stakeholders such as water experts, climate change professionals, health experts, GIS specialists, urban planners, professionals from development sectors. The member list is being updated regularly after each TOT or case studies which has been made available in the CapNet Bangladesh website at <http://www.capnet-bd.org/about-us.php?ID=15>

## 3. CapNet Bangladesh activities 2019

- I. Core Group Meeting 2019
- II. Case Study on Climate change, water and health in coastal zone of Bangladesh
- III. National Level ToT on Climate Change, Water and Health
- IV. Monitoring and evaluation and learning plan (MELP) of activities of 2018

### A. Core Group Meeting 2019

The core group meeting was held on 5<sup>th</sup> November 2019. The details of the meeting is described as follows:

Date: 5<sup>th</sup> November 2019

Time: 4 pm

Venue: Pacific Lake view Hotel and Res

Chaired by: Dr. Atiq Rahman and Mr. Golam Rabbani, from BCAS

Participants Present: Md. Mahbub Alam Feros (Society for Human Development), Rumana Afroze Dipti (Bangladesh Environmental Lawyers Association (BELA) Sudipta Chowdhury (Institute of Development Affairs (IDEA), Sylhet, Md. Saiful Islam (NGO Forum for Public Health), Md. Tarikul Islam (Climate Change Cell, IWM) Institute of Water Modelling (IWM), Farhana Islam, (WaterAid), Jabunnahar Ahmed (BCAS), Sabrina Zaman (BCAS), Md. Sazzadul Karim (BCAS)

#### I. Meeting discussions

The discussion mainly focused on future activities of CapNet Bangladesh. From the discussion of the core group members a number of potential activities has been decided to be selected for the year 2020.

The participants of the meeting shared their experiences, lessons learned and good practices of climate change induced water vulnerabilities. The aim is to establish a common platform for dissemination and sharing of knowledge with sustainable management options considering views and experience of stakeholder, water and sanitation manager, researcher, urban planner, policy maker and gender experts.

#### B. Case study on climate change, water and health in coastal zone of Bangladesh

The study has been conducted in Munshiganj union under Shamnagar Upazilla and Chila union under Mongla Upazilla under Shatkhira and Bagerhat districts respectively. The study intended to explore the current climate change impacts on access to water supply and sanitation on bagerhat and Shatkhira in the coastal areas and to assess on how inadequate access to safe water due to climate change affects the health of the people especially of the women and children, The final report of the case study has been submitted to the CapNet Bangladesh after completing all the activities.

#### C. National Level Training of Trainers (ToT) on Climate Change, Water and Health

A national level training of trainers (ToT) has been conducted on November 4-5, 2019 on “Climate Change, Water and Health”. The TOT was designed to strengthen the capacity of the water and public health professionals of the government organizations, civil society organizations (CSOs), non-government organizations, academicians as well as research institutes and to exchange and share experiences, lessons learned and good practices of climate resilient water and health based on

the venerable areas of Bangladesh. Participants from diverse sectors such as water experts, hydrologist, urban planners, academicians and so on having acquaintance in the relevant field has attended the event. 56 individuals were contacted to participate of which 32 participants attended the event. The ToT has given a platform to the professionals working in this sector. Besides participants who had little knowledge about the relationship between climate change, water and health related issues came to know about this. Participants also shared their views on the workshop and suggested key areas for future activities of this kind. Their suggestions have been incorporated in designing the work plan for 2020.

After the ToT workshop participants were given evaluation forms to evaluate the course. About 15 participants attended the evaluation process and their comments and reviews has been incorporated to the ToT report submitted to the CapNet network.

#### D. Monitoring and evaluation and learning plan (MELP) of activities of 2018

To evaluate the outcomes of the 2018 ToT participants were contacted via email and over phone. Among the contacted 32 participants 14 responded to the email and link shared for the evaluation activities. All

of the participants were Bangladesh Nationals. A team of three members has followed up the networking and monitoring activities. Outcome and evaluation report of the MEPL activity has been prepared by CapNet Bangladesh and submitted to the CapNet network.

#### 4. Preparation of Work Plan, Implementation and Decision Making

CapNet Bangladesh develops its work plan and implementation mechanism engaging the core group member organizations. Most of the core group members including IWFM, BUET, CEGIS, BWP, IUCN, IWM and BCAS are quite active and attended the last core group meeting. The core group usually meet once in every year and initiate the implementation mechanism as soon as CapNet approves the work plan. However, in 2019, CapNet Bangladesh had one meeting of the members.

#### A. Future activities of CapNet Bangladesh

There were discussions about the potential activities of CapNet Bangladesh in the core group meeting which was chaired by Dr. Atik Rahman and Dr. Mohammad Golam Rabbani. Participants placed their views and suggested research gap and potential activities for the next year. After the

discussion a list of activities has been prepared from which the following activities has been selected. This would capacitate the participants to obtain knowledge on sustainable solutions for environmental challenges.

- I. Case study on assessing water footprint for Bangladesh
- II. National level Training of climate-resilient integrated water resource and coastal management.
- III. Protection of trans-boundary surface and groundwater in a changing climate.

These activities has been proposed to the CapNet network to be implemented in

2020. Activities will be designed before implementing the activities.

#### 5. Website Management

The CapNet Bangladesh website is being reviewed and updated with the recent activities. The website can be found in the link here [www.capnet-bd.org](http://www.capnet-bd.org)

#### 6. Financial statement of CapNet activities

All the financial statements of the activities for 2019 has been submitted to the CapNet network. The proposed activities for 2020 with the budget has been submitted as well.
